Hector.

Thanks for the information about the meeting tomorow, unfortunately that meeting at 9:30 will conflict with our board meeting. I guess what I am trying to figure out is if the City of Peorial/Peoria County or their health department had reached out asking if we wanted to commit to their plan? Their press conference and documentation seemed to imply that Marshall County was a partner in developing this plan and was in agreement with all of the terms of the plan, because we were not aware of it until the news stories started to pop up online. Gary has put a call in to Andrew Rand, the Peoria County Board Chairman, to understand how this plan was developed and how it came to be that Marshall County was included since no Marshall County elected officials were involved in it. If you have any insight into this please let us know.

Thanks.

Travis

I did receive the link to this from Terry Madsen, our Public Health Emergency Planner and PIO. We did send some information to our IAPHA regional president to take to Governor JB Pritzker. At this time we will be holding a zoom call with all three states attorney's and BOH presidents tomorrow at 9:30 am. We will discuss enforcement and potential loosening some restrictions including some limited outside dining, campgrounds and other outdoor activities. Marshall Putnam fair ? Hector,

Did the health department provide input or at least get contact by the City/County of Peoria about their Restore Heart of Illinois plan which is attempting to lift restrictions on organizations in our region faster than the Governor's Restore Illinois Plan?

We're listed as a participating county according to their documentation but neither Gary nor I had heard anything about it until they posted this press conference online.

If you aren't familiar with it either, here is link to their website:
