A RESOLUTION AUTHORIZING AMERICAN RESCUE PLAN ACT GRANT DISBURSEMENTS

#21-107

WHEREAS, Marshall County is responsible for the administration of grant funding and distribution from the American Rescue Plan Act Grant pursuant to prior resolution;

WHEREAS, Marshall County has been, or will be, allocated American Rescue Plan Act Grant funds;

WHEREAS, Marshall County resolved to use American Rescue Plan Act Grant funds for any purpose not prohibited by law within Marshall County;

WHEREAS, the County of Marshall, Illinois has designated the Marshall County Board or its chosen committee to administer these grants;

WHEREAS, the Marshall County Board will adhere to and enforce all Federal Regulations and Certifications for the American Rescue Plan Act Grant programs;

WHEREAS, the County of Marshall, Illinois has designated the Marshall County Board to administer these grants and to prepare grant agreements, and all other related documentation as required by the American Rescue Plan Act.

NOW, THEREFORE, BE IT RESOLVED that the County Board of the County of Marshall, Illinois, hereby authorizes the distribution of American Rescue Plan Act Funds using funds awarded by the United States Treasury or Illinois Department of Revenue, at the sole discretion of the Marshall County Board or its chosen committee to: Camp Grove \$18,500 for the purpose of: Engineering-Water

BE IT FURTHER RESOLVED that the County Board hereby directs and designates the recipient, or
its chosen committee, to act in accordance with the American Rescue Plan Act Grant and comply with any requirement thereunder and provide any documentation as required by the American Rescue Plan Act.
PASSED by the Chairman and the Board of Marshall County on the H day of 2021 and
deposited and filed in the office of the County Clerk of said County on that date.
PRESENT NAY AYE II
APPROVED by the Chairman of the Marshall County Board, this 4 day of 4 day of 2021.
JNI M. Kenyon Marshall County Clerk Gary Kroeschen Chairman of Marshall County

Coronavirus State and Local Fiscal Recovery Funds Frequently Asked Questions

AS OF MAY 10, 2021

This document contains answers to frequently asked questions regarding the Coronavirus State and Local Fiscal Recovery Funds (CSFRF / CLFRF, or Fiscal Recovery Funds). Treasury will be updating this document periodically in response to questions received from stakeholders. Recipients and stakeholders should consult the Interim Final Rule for additional information.

- For overall information about the program, including information on requesting funding, please see https://home.treasury.gov/policy-issues/coronavirus/assistance-for-state-local-and-tribal-governments
- For general questions about CSFRF / CLFRF, please email <u>SLFRP@treasury.gov</u>
- Upon publication of the Interim Final Rule in the Federal Register, Treasury encourages stakeholders to submit public comments on the Interim Final Rule at regulations.gov

Eligibility and Allocations

1. Which governments are eligible for funds?

The following governments are eligible:

- States and the District of Columbia
- Territories
- Tribal governments
- Counties
- Metropolitan cities
- Non-entitlement units, or smaller local governments

2. Which governments receive funds directly from Treasury?

Treasury will distribute funds directly to each eligible state, territory, metropolitan city, county, or Tribal government. Smaller local governments that are classified as non-entitlement units will receive funds through their applicable state government.

3. Are special-purpose units of government eligible to receive funds?

Special-purpose units of local government will not receive funding allocations; however, a state, territory, local, or Tribal government may transfer funds to a special-purpose unit of government. Special-purpose districts perform specific functions in the community, such as fire, water, sewer or mosquito abatement districts.

Essential workers are those in critical infrastructure sectors who regularly perform inperson work, interact with others at work, or physically handle items handled by others.

Critical infrastructure sectors include healthcare, education and childcare, transportation, sanitation, grocery and food production, and public health and safety, among others, as provided in the Interim Final Rule. Governments receiving Fiscal Recovery Funds have the discretion to add additional sectors to this list, so long as the sectors are considered critical to protect the health and well-being of residents.

The Interim Final Rule emphasizes the need for recipients to prioritize premium pay for lower income workers. Premium pay that would increase a worker's total pay above 150% of the greater of the state or county average annual wage requires specific justification for how it responds to the needs of these workers.

29. What criteria should recipients use in identifying third-party employers to receive grants for the purpose of providing premium pay to essential workers?

Any third-party employers of essential workers are eligible. Third-party contractors who employ essential workers in eligible sectors are also eligible for grants to provide premium pay. Selection of third-party employers and contractors who receive grants is at the discretion of recipients.

To ensure any grants respond to the needs of essential workers and are made in a fair and transparent manner, the rule imposes some additional reporting requirements for grants to third-party employers, including the public disclosure of grants provided.

30. May recipients provide premium pay retroactively for work already performed?

Yes. Treasury encourages recipients to consider providing premium pay retroactively for work performed during the pandemic, recognizing that many essential workers have not yet received additional compensation for their service during the pandemic.

Eligible Uses - Water, Sewer, and Broadband Infrastructure

31. What types of water and sewer projects are eligible uses of funds?

The Interim Final Rule generally aligns eligible uses of the Funds with the wide range of types or categories of projects that would be eligible to receive financial assistance through the Environmental Protection Agency's Clean Water State Revolving Fund (CWSRF) or Drinking Water State Revolving Fund (DWSRF).

Under the DWSRF, categories of <u>eligible projects</u> include: treatment, transmission and distribution (including lead service line replacement), source rehabilitation and decontamination, storage, consolidation, and new systems development.

Under the CWSRF, categories of <u>eligible projects</u> include: construction of publicly-owned treatment works, nonpoint source pollution management, national estuary program projects, decentralized wastewater treatment systems, stormwater systems, water conservation, efficiency, and reuse measures, watershed pilot projects, energy efficiency measures for publicly-owned treatment works, water reuse projects, security measures at publicly-owned treatment works, and technical assistance to ensure compliance with the Clean Water Act.

As mentioned in the Interim Final Rule, eligible projects under the DWSRF and CWSRF support efforts to address climate change, as well as to meet cybersecurity needs to protect water and sewer infrastructure. Given the lifelong impacts of lead exposure for children, and the widespread nature of lead service lines, Treasury also encourages recipients to consider projects to replace lead service lines.

32. May construction on eligible water, sewer, or broadband infrastructure projects continue past December 31, 2024, assuming funds have been obligated prior to that date?

Yes. Treasury is interpreting the requirement that costs be incurred by December 31, 2024 to only require that recipients have obligated the funds by such date. The period of performance will run until December 31, 2026, which will provide recipients a reasonable amount of time to complete projects funded with Fiscal Recovery Funds.

33. May recipients use funds as a non-federal match for the Clean Water State Revolving Fund (CWSRF) or Drinking Water State Revolving Fund (DWSRF)?

Recipients may not use funds as a state match for the CWSRF and DWSRF due to prohibitions in utilizing federal funds as a state match in the authorizing statutes and regulations of the CWSRF and DWSRF.

34. Does the National Environmental Policy Act (NEPA) apply to eligible infrastructure projects?

NEPA does not apply to Treasury's administration of the Funds. Projects supported with payments from the Funds may still be subject to NEPA review if they are also funded by other federal financial assistance programs.

35. What types of broadband projects are eligible?

The Interim Final Rule requires eligible projects to reliably deliver minimum speeds of 100 Mbps download and 100 Mbps upload. In cases where it is impracticable due to geography, topography, or financial cost to meet those standards, projects must reliably deliver at least 100 Mbps download speed, at least 20 Mbps upload speed, and be scalable to a minimum of 100 Mbps download speed and 100 Mbps upload speed.
