This image shows a single sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.

Improvement of Western Avenue from approximately 800 feet east of TR 1130E and ending approximately 1200 feet east of TR 1000E.

The project begins approximately 2.5 miles west of the Western Avenue (CH 6) intersection with IL 29 and proceeds in a westerly direction for 5500 feet (1.042 miles) ending approximately 3.5 miles east of the intersection of Western Avenue (CH 6) with CH 7.

The purpose of the project is to increase the overall safety of the roadway section, reduce accidents and provide a better driving surface for the motoring public and allow for the use of 80,000 lbs. trucks. This improvement will upgrade the last remaining section of Western Avenue (CH 6) to an 80,000 lbs. truck route that is used for transporting grain, aggregate and other materials to the Illinois River port of Henry, Illinois. The new alignment will eliminate the steep, sharp curves and poor sight distance of the existing alignment and reduce the number of accidents.

The project is rural in nature and no provisions for special facilities to accommodate pedestrians, bicyclists or the handicapped are planned. The facility should be able to accommodate the occasional non-motorized user because of the low traffic volumes and good site distance.

The design speed for the new construction is 50 MPH. The proposed roadway for Western Avenue will consist of a 24 foot full depth HMA pavement with 4 foot aggregate shoulders. The roadway fore slopes will be 3:1 with 3:1 back slopes. There are some areas where the back slopes will be 2:1 because of Right-of-Way constraints. TR 1130 will be realigned to provide a better intersection with the proposed Western Avenue. TR 1130 will consist of a 20 foot HMA surface with 4 foot earth shoulders north of the proposed Western Avenue intersection and a 20 foot aggregate surface with 4 foot shoulders south of the Western Avenue intersection.

TR 1130 will consist of a 20 foot HMA surface with 4 foot earth shoulders north of the proposed Western Avenue intersection and a 20 foot aggregate surface with 4 foot shoulders south of the Western Avenue intersection.

Comments

① Would like road access behind my house and barn (so would Kochers).

② Would like to move right-of-way closer to road for grazing (same for Kochers).

③ Would like fencing impact studied for both sides.

Informational Meeting

Scheduled By

Marshall County Highway

Department For

Improvement Of

County Highway 6

(Western Avenue)

12-14-07  
An informational meeting has been scheduled from 3:30 p.m. until 6:00 p.m. Wednesday, December 19, 2007, in the conference room of the Marshall County Highway Building for the purpose of discussing the relocation of County Highway 6, which is also known as Western Avenue, from 800 feet east of Township Road 1130E to 1200 feet east of Township Road 1000E. All persons interested in this project are invited to attend the meeting. The meeting room is accessible to persons with a disability. If special accommodations are needed please contact the person listed below and identify those needs.

The meeting will be conducted on an informal basis. The project is in the planning stage with no estimated date of construction. Preliminary reports including an Environmental Survey Request along with engineering drawings, maps and aerial photographs will be available for inspection. Representatives from Marshall County Highway Department and the project consultant will be present to discuss the project, answer individual questions and receive comments offered by those in attendance. A transcript will not be recorded.

For more information,

George Meister, County

Re: Marshall County Western Avenue FAS 372 / CH 6 / Section 99-00080-00-FP

Dear Ms. Robison:

The purpose of this letter is to notify you that Marshall County Highway Department is presently in the preliminary engineering phase of a study for the relocation and reconstruction of CH 6 / Western Avenue from 800 feet east of Township Road 1130E to 1200 feet east of Township Road 1000E.

It is the policy of the Illinois Department of Transportation (IDOT) and Marshall County to provide all interested persons an opportunity to become acquainted with highway proposals of concern to them so they may express their view at those stages of a proposed project, when the flexibility to respond to those views still exists. This letter is to inform you that an informational meeting is scheduled from 3:00 p.m. until 6:00 p.m. Wednesday, December 19, 2007, in the conference room of the Marshall County Highway Building, 552 State Route 26, Lacon, IL.

The meeting will be conducted on an informal basis. The project is in the planning stage with no estimated date of construction. Preliminary reports including an Environmental Survey Request along with engineering drawings, maps and aerial photographs will be available for inspection. Representatives from Marshall County Highway Department and the project consultant will be present to discuss the project, answer individual questions and receive comments offered by those in attendance. A transcript will not be recorded.

For more information, contact George Meister, County Engineer, 552 State Route 26, P. O. Box 242, Lacon, Illinois. Telephone 309-246-6401, Fax 309-246-3446.

Sincerely,

George P. Meister  
County Engineer

956 Whitefield Road  
Henry, IL 61537

Re: Marshall County Western Avenue FAS 372 / CH 6 / Section 99-00080-00-FP

Dear Mr. & Mrs. Kocher:

The purpose of this letter is to notify you that Marshall County Highway Department is presently in the preliminary engineering phase of a study for the relocation and reconstruction of CH 6 / Western Avenue from 800 feet east of Township Road 1130E to 1200 feet east of Township Road 1000E.

It is the policy of the Illinois Department of Transportation (IDOT) and Marshall County to provide all interested persons an opportunity to become acquainted with highway proposals of concern to them so they may express their view at those stages of a proposed project, when the flexibility to respond to those views still exists. This letter is to inform you that an informational meeting is scheduled from 3:00 p.m. until 6:00 p.m. Wednesday, December 19, 2007, in the conference room of the Marshall County Highway Building, 552 State Route 26, Lacon, IL.

The meeting will be conducted on an informal basis. The project is in the planning stage with no estimated date of construction. Preliminary reports including an Environmental Survey Request along with engineering drawings, maps and aerial photographs will be available for inspection. Representatives from Marshall County Highway Department and the project consultant will be present to discuss the project, answer individual questions and receive comments offered by those in attendance. A transcript will not be recorded.

For more information, contact George Meister, County Engineer, 552 State Route 26, P. O. Box 242, Lacon, Illinois. Telephone 309-246-6401, Fax 309-246-3446.

Sincerely,

George P. Meister  
County Engineer

December 7, 2007

Ms. Roberta Bogner  
910 School Street  
Henry, IL 61537

Re: Marshall County Western Avenue FAS 372 / CH 6 / Section 99-00080-00-FP

Dear Ms. Bogner:

The purpose of this letter is to notify you that Marshall County Highway Department is presently in the preliminary engineering phase of a study for the relocation and reconstruction of CH 6 / Western Avenue from 800 feet east of Township Road 1130E to 1200 feet east of Township Road 1000E.

It is the policy of the Illinois Department of Transportation (IDOT) and Marshall County to provide all interested persons an opportunity to become acquainted with highway proposals of concern to them so they may express their view at those stages of a proposed project, when the flexibility to respond to those views still exists. This letter is to inform you that an informational meeting is scheduled from 3:00 p.m. until 6:00 p.m. Wednesday, December 19, 2007, in the conference room of the Marshall County Highway Building, 552 State Route 26, Lacon, IL.

The meeting will be conducted on an informal basis. The project is in the planning stage with no estimated date of construction. Preliminary reports including an Environmental Survey Request along with engineering drawings, maps and aerial photographs will be available for inspection. Representatives from Marshall County Highway Department and the project consultant will be present to discuss the project, answer individual questions and receive comments offered by those in attendance. A transcript will not be recorded.

For more information, contact George Meister, County Engineer, 552 State Route 26, P. O. Box 242, Lacon, Illinois. Telephone 309-246-6401, Fax 309-246-3446.

Sincerely,

George P. Meister  
County Engineer

Henry, IL 61537

Re: Marshall County Western Avenue FAS 372 / CH 6 / Section 99-00080-00-FP

Dear Mr. Rowe:

The purpose of this letter is to notify you that Marshall County Highway Department is presently in the preliminary engineering phase of a study for the relocation and reconstruction of CH 6 / Western Avenue from 800 feet east of Township Road 1130E to 1200 feet east of Township Road 1000E.

It is the policy of the Illinois Department of Transportation (IDOT) and Marshall County to provide all interested persons an opportunity to become acquainted with highway proposals of concern to them so they may express their view at those stages of a proposed project, when the flexibility to respond to those views still exists. This letter is to inform you that an informational meeting is scheduled from 3:00 p.m. until 6:00 p.m. Wednesday, December 19, 2007, in the conference room of the Marshall County Highway Building, 552 State Route 26, Lacon, IL.

The meeting will be conducted on an informal basis. The project is in the planning stage with no estimated date of construction. Preliminary reports including an Environmental Survey Request along with engineering drawings, maps and aerial photographs will be available for inspection. Representatives from Marshall County Highway Department and the project consultant will be present to discuss the project, answer individual questions and receive comments offered by those in attendance. A transcript will not be recorded.

For more information, contact George Meister, County Engineer, 552 State Route 26, P. O. Box 242, Lacon, Illinois. Telephone 309-246-6401, Fax 309-246-3446.

Sincerely,

George P. Meister  
County Engineer

Re: Marshall County; Western Avenue  
CH6 / FAS 372  
Section 99-00080-00FP

Dear Landowner:

The purpose of this letter is to inform you that the Marshall County Highway Department is presently in the preliminary engineering phase of a study for the relocation and reconstruction of CH6 / Western Avenue, from 800 feet east of Township Road 1130E to 1200 feet east of Township Road 1000E.

It is the policy of the Marshall County City and the Illinois Department of Transportation (IDOT) to allow the public an opportunity to become acquainted with highway proposals of potential concern to them and to provide their input. We are contacting each of the property owners located adjacent to the proposed relocated section of Western Avenue to submit comments regarding the proposed improvement.

Please complete the comment section at the end of this letter to provide your input on the project. You may also request further discussions, either via the telephone or a personal meeting with this office. If no response is received within 21 days, it will be considered as a "no comment" response.

Upon completion of the preliminary study, a report will be prepared describing the proposed work and submitted to IDOT for approval. After approval is received, we will proceed with the final plan preparation and land acquisition phase. In that phase, a representative of Marshall County will contact you regarding any necessary right-of-way or easement acquisition.

Please note that your response, or lack thereof, will in no way influence future negotiations for your property, if acquired as part of the project. This inquiry is not an offer to acquire the property indicated by our preliminary designs. This shall not be construed as an agreement to sell your property in the future.

If you have additional questions or wish to further discuss the project, you may contact Marshall Co. Engineer, Mr. Patrick G. Sloan, PE at the Marshall County Highway Department, with my email at [Psloan@marshallcountyillinois.com](mailto:Psloan@marshallcountyillinois.com) or by phone at (309) 246-6401.

Hello!

My name is Roberta Bogner, and I got your letter with the enclosed aerial photo. I'm not sure if I'm seeing this right, but it looks like I'm not going to be involved.

Your predecessor (several predecessors ago?) told me to have my foundation built back far off Western avenue, which I did.

What seems to be different in this decade's configuration, is that it looks like the triangle drive on Lefman's land is going to be paved.

Have a nice day

---

☒ I have the following comments on the project.

Mr. Patrick Sloan, If this proj. it goes, as it is, we will be losing lots of road frontage. Hopefully you & the county could see to it that where you tear the old bridge out, and where the old Western Ave. and new Western Roads are to meet - the N.E. corner of that junction; - that we get this ground. If we have to pay for this, so be it. We really don't want to loose our road

Re: Marshall County; Western Avenue  
CH6 / FAS 372  
Section 99-00080-00FP

Dear Landowner:

The purpose of this letter is to inform you that the Marshall County Highway Department is presently in the preliminary engineering phase of a study for the relocation and reconstruction of CH6 / Western Avenue, from 800 feet east of Township Road 1130E to 1200 feet east of Township Road 1000E.

It is the policy of the Marshall County City and the Illinois Department of Transportation (IDOT) to allow the public an opportunity to become acquainted with highway proposals of potential concern to them and to provide their input. We are contacting each of the property owners located adjacent to the proposed relocated section of Western Avenue to submit comments regarding the proposed improvement.

Please complete the comment section at the end of this letter to provide your input on the project. You may also request further discussions, either via the telephone or a personal meeting with this office. If no response is received within 21 days, it will be considered as a "no comment" response.

Upon completion of the preliminary study, a report will be prepared describing the proposed work and submitted to IDOT for approval. After approval is received, we will proceed with the final plan preparation and land acquisition phase. In that phase, a representative of Marshall County will contact you regarding any necessary right-of-way or easement acquisition.

Please note that your response, or lack thereof, will in no way influence future negotiations for your property, if acquired as part of the project. This inquiry is not an offer to acquire the property indicated by our preliminary designs. This shall not be construed as an agreement to sell your property in the future.

If you have additional questions or wish to further discuss the project, you may contact Marshall Co. Engineer, Mr. Patrick G. Sloan, PE at the Marshall County Highway Department, with my email at [Psloan@marshallcountyillinois.com](mailto:Psloan@marshallcountyillinois.com) or by phone at (309) 246-6401.

Please check the appropriate response and return one copy in the enclosed self-addressed stamped envelope:
