

Chairperson Gauwitz went over the increase changes with the 2024 Preliminary Budget. He explained that if we leave everything the way it is and was presented, we will be \$562,598 over than what we are bringing in for tax revenue. Someone had suggested to take an extra \$250, 000 and make a payment towards the unfunded pension liability. He talked to the auditor, and they suggest not to do that as it didn't make a difference. With the engineering and bridge cost up.

**#23-93** It was moved by Stash and seconded by Lueders to **approve** to place the budget on the County Clerk's counter until the October meeting for department head reviews and to **not** make an extra payment to the retirement fund.
