#### INDEPENDENT AUDITOR'S REPORT

County Board Marshall County, Illinois

#### **Opinions**

We have audited the accompanying financial statements of the governmental activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of Marshall County, Illinois, as of and for the year ended November 30, 2023, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the Table of Contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of Marshall County, as of November 30, 2023, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the County and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the County's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

#### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and Government Auditing Standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements. In performing an audit in accordance with generally accepted auditing standards and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the County's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the retirement plan information on pages 31-33, the budgetary comparison information on pages 34-37, and Notes to the Budgetary Comparison Schedules on page 38 be presented to supplement the basic financial statements, as listed as *Required Supplementary Information* in the table of contents. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted the Management Discussion and Analysis that accounting principles generally accepted in the United States of America requires to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

#### Other Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The accompanying Schedules on pages 39-81 are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedules on pages 39-81 are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

#### Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated January 10, 2024, on our consideration of Marshall County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the County's internal control over financial reporting and compliance.

## INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

County Board Marshall County, IL

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of Marshall County as of and for the year ended November 30, 2023, and the related notes to the financial statements, which collectively comprise the County's basic financial statements, and have issued our report thereon dated January 10, 2024.

#### Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) as a basis for designing audit procedures that are not appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

#### Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Hopkins & auco.

Net Position, November 30, 2023	\$ 1,076,847

#### Note 1 - Summary of Significant Accounting Policies

#### A. General

Marshall County is a governmental entity located in Central Illinois. Revenues are substantially generated as a result of taxes assessed and allocated to Marshall County (examples would be property taxes, sales taxes, income taxes, and motor fuel taxes) and charges for services performed for constituents of the County. Marshall County revenues are therefore primarily dependent on the economy within its territorial boundaries. Industry within the County is primarily agriculture, manufacturing, and retail.

The accounting policies of Marshall County, Illinois conform to generally accepted accounting principles as applicable to governmental units. The following is a summary of the more significant of such policies.

#### B. Reporting Entity

For financial reporting purposes, in accordance with the Codification of Governmental Accounting and Financial Reporting Standards, Section 2100, Marshall County, Illinois is a primary government in that it is a county with a separately elected governing body – one that is elected by the citizens in a general, popular election and is fiscally independent of other units of government.

The County has developed criteria to determine whether other entities are component units of the County. Component units are legally separate organizations for which the elected officials of Marshall County are financially accountable. Marshall County would be considered financially accountable if it appoints a voting majority of the organization's governing body and (1) it is able to impose its will (significantly influence the programs, projects, activities, or level of services performed or provided by the organization) on the organization or (2) there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, Marshall County (i.e., entitled to or can access the organization's resources, is legally obligated or has otherwise assumed the obligation in some manner for the debt of the organization). If an organization is fiscally dependent on Marshall County, the County is considered financially accountable regardless of whether the organization has (1) separately elected governing board, (2) a governing board appointed by a higher level of government, or (3) a jointly appointed board.

Marshall County, Illinois is not a component unit of any other entity. However, based on the foregoing criteria, the following organization is included in Marshall County's government-wide financial statements as a component unit.

<u>Discretely Presented Component Unit – Marshall County Emergency Telephone System</u> Board

The component unit column in the combined financial statements includes the financial data of the Marshall County Emergency Telephone System Board. It is reported in a

#### Note 1 - Summary of Significant Accounting Policies (Continued)

#### B. Reporting Entity (Continued)

separate column to emphasize that it is legally separate from the County. The Marshall County Board Chairman, with the advice and consent of the Marshall County Board, appoints board members to the Marshall County Emergency Telephone System Board, the Members of the appointed Board are then responsible for planning the 911 emergency system, receiving monies imposed under an established surcharge, and authorizing disbursements. The geographic area served by the Marshall County Emergency Telephone System Board is the same as Marshall County. The Treasurer of Marshall County maintains the funds and invests or disburses them at the direction of the Marshall County Emergency Telephone System Board. Separate financial statements of the Marshall County Emergency Telephone System Board are not prepared.

#### Other Entity Considerations

The County Board Chairman and County Board may take appointments of the governing boards of a number of fire protection, drainage, public water, and sanitary districts. Even though the County Board may appoint a majority of the members of the respective districts, the members do not serve at the discretion of the County Board, that is, they can be removed only for cause. There are no indications that the County Board can impose its will over these districts and therefore has no financial accountability. These units are not considered component units of Marshall County, Illinois.

#### C. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the primary government and its component unit. For the most part, the effect of inter-fund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Marshall County, Illinois does not have any business-type activities. Likewise, the primary government is reported separately from its legally separate component unit for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a

#### Note 1 - Summary of Significant Accounting Policies (Continued)

#### C. Government-Wide and Fund Financial Statements (Continued)

particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statement. Major individual governmental funds are reported as separate columns in the fund financial statements.

#### D. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenue are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collectible within the current period or soon enough thereafter to pay liabilities of the current period, which is considered within the ensuing year, except for property taxes, which must be collected within 60 days to be considered available. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, and licenses are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government.

#### Note 1 - Summary of Significant Accounting Policies (Continued)

#### E. Major Funds

The County reports the following major governmental funds:

The General Fund is the government's primary operating fund. It is used to account for all financial resources of the general government, except those required to be accounted for in another fund.

The County Highway Fund accounts for the general operations of the County Highway Department. Financing is principally provided by a specific annual property tax for the purposes of improving, maintaining, and repairing the highways for which the County has these responsibilities (highways which the state and County construct, improve, and maintain jointly.) In addition to the ad valorem taxes mentioned previously, the County Highway Fund receives revenue from service fees charged to other governmental units, funds or individuals, and reimbursements and matching grants with the state or other units of local government.

The County Airport Fund accounts for the cost of operation and maintenance of the County Airport, including payment of principal and interest on revenue bonds issued. Financing is provided by a specific annual property tax levy and rental of airport facilities.

The County Health Fund accounts for the operations of the County's Health program. Financing of the fund is provided by a specific annual property tax levy authorized by a voter referendum and operating grants from the State of Illinois.

The *Illinois Municipal Retirement Fund* accounts for the activities resulting from the County's participation in the Illinois Municipal Retirement Fund. Financing is provided by a specific annual property tax levy which produces a sufficient amount to pay the County's contributions to the fund on behalf of the County employees. Additional financing is provided by an allocation of the Illinois personal property replacement tax.

As a general rule, the effect of inter-fund activity has been eliminated from the government-wide financial statements.

#### F. Budgets and Budgetary Accounting

The County adopts an annual budget and appropriation ordinance in accordance with Chapter 55 of the Illinois Compiled Statutes. The budget covers the fiscal year ending November 30<sup>th</sup> and is available for public inspection at least fifteen days proper to final adoption. All appropriations cease with the close of the fiscal year. The budget document is prepared for all budgetary funds on the modified accrual basis.

#### Note 1 - Summary of Significant Accounting Policies (Continued)

#### F. Budgets and Budgetary Accounting (Continued)

Once the County budget has been adopted, no further appropriations shall be made during the year except in the event of an immediate emergency at which time the County Board by a two-thirds vote can make appropriations in excess of those authorized in the budget. Adjustments made during the year are reflected in the budget information included in the financial statements. The ultimate level of control is the fund but is carried down to department and line item.

#### G. Capital Assets

Capital assets, which include property, plant, equipment and infrastructure assets, are reported in the applicable governmental columns in the government-wide financial statements. Capital assets are defined by the County as assets with an initial, individual cost of more than \$30,000 (\$30,000 for road/bridges and \$15,000 for pipe culverts) for infrastructure assets and \$4,000 for non-infrastructure assets, as well as an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated fair market value at the date of donation. The cost of normal maintenance and repairs do not add to the value of the asset or materially extend assets' lives are not capitalized.

Depreciation on all assets that exceed the threshold levels is provided on the straight-line basis over the following estimated useful lives:

Category	Life (years)
Land Improvements	20
Buildings	20-50
Building Improvements	20
Machinery and Equipment	5-15
Computer Equipement	5
Office Equipment	10
Off-Road Vehicles	15
On-Road Vehicles	4-7
Software	5
Infrastructure	15-30

#### Note 1 - Summary of Significant Accounting Policies (Continued)

#### G. <u>Capital Assets</u> (Continued)

GASB No. 34 requires the County to report and depreciate new infrastructure assets effective as of December 1, 2003. Infrastructure assets, which include roads and bridges, would likely be the largest asset class of the County; however, neither their historical cost nor related depreciation has been reported in the financial statements nor, is its recreation required. The Board has elected to report infrastructure only prospectively. GASB 34 requires the retrospective recognition of capital assets other than infrastructure. The County has considered possible impairments to its capital assets and asserts that there are none known or anticipated.

#### H. Cash

All highly liquid investments (including restricted assets) with an original maturity of three months or less when purchased are considered cash equivalents.

#### I. Cash Equivalents

Cash Equivalents consist of certificates of deposit and are stated at the lower cost or amortized cost, which approximated market.

#### J. Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/due from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the noncurrent portion of interfund loans). All other outstanding balances between funds are reported as due to/from other funds". All borrowing between funds at November 30, 2023 are considered current.

#### K. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and governmental fund financial statements.

#### L. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

#### Note 1 - Summary of Significant Accounting Policies (Continued)

#### M. Accumulated Unpaid Vacation and Sick Pay

Sick & Personal Leave – Full time employees will be granted ten (10) sick/personal leave days per year. Unused sick/personal leave days will not be paid out to employees at the end of the year or otherwise credited for except for as explained below for IMRF credit. Retiring IMRF members may qualify for a maximum of one year additional pension service credit for unpaid, unused, sick leave accumulated at the rate of one month for every twenty (20) days of unpaid, unused sick leave of fraction thereof. Marshall County IMRF Administration can provide information on the specific details for receiving this additional pension service credit. While an employee is off duty because of illness, additional sick leave is not accumulated.

Vacation - Employees earn vacation time in accordance with the following schedule which is based upon continuous years of service: 1. One week with full pay after one year of service based on employee's anniversary date. 2. Two weeks with full pay after two years of service based on employee's anniversary date. 3. Three weeks with full pay after five years of service based on employee's anniversary date. 4. Four weeks with full pay after fifteen years of service based on employee's anniversary date. In the event of termination of employment, the employee will receive a pro-rated vacation allowance At the discretion of their supervisor, employees may carry over one week of unused vacation to the next year. Used vacation will not be compensated for at the end of the year.

#### N. <u>Long Term Obligations</u>

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities statement of net position. In the fund financial statements, governmental fund types recognize the face amount of debt issued as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

#### O. Restricted and Unrestricted Resources

When an expense is incurred in which both restricted and unrestricted net assets are available, it is the County's policy to apply the restricted resources first.

In order to comply with GASB 54, the County adheres to the fund balance classification requirements. Fund balances in the fund financial statements are classified as follows:

- a. Nonspendable Fund balances should be considered to be nonspendable if funds are not in spendable form, or are legally or contractually required to be maintained intact. Nonspendable funds for the County include prepaid expenses and inventory at year-end.
- b. Restricted Fund balances should be considered to be restricted when constraints placed on funds are either externally imposed by creditors (such as through debt

#### Note 1 - Summary of Significant Accounting Policies (Continued)

#### O. Restricted and Unrestricted Resources (Continued)

covenants), grantors, contributors, or laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation. The County has restricted funds at year-end that are detailed in Note 4.

- c. Committed Fund balances should be considered to be committed if funds can only be used for specific purposes as a result of constraints imposed by formal action of the County's Board of Trustees. The County has no committed balance at year-end.
- d. Assigned Fund balances should be considered to be assigned if amounts that are constrained by the County's intent to be used for specific purposes, but are neither restricted nor committed. The County has no assigned fund balances at year-end.
- e. Unassigned Fund balances should be considered to be unassigned if they are a portion of the General fund balances that have not been considered to be restricted, committed, or assigned to specific purposes.

Unless specifically identified, expenditures act to reduce restricted balances first, then committed balances, next assigned balances, and finally act to reduce unassigned balances. Expenditures for a specifically identified purpose will act to reduce the specific classification of fund balance that is identified.

#### P. Property Taxes

Property taxes become liens on individual properties as of January 1 in the year of the levy. The County Board must pass the tax levy ordinance so that a certification of the levy may be filed with the County Clerk by the last Tuesday of December. Statutory due dates for collection of the taxes are June 1 and September 1 of the following year. Property taxes collected are distributed to each taxing district approximately thirty days after receipt. Any unpaid property taxes are sold at a tax sale and final distribution is made by the end of November of each year.

#### Q. <u>Inventory</u>

Inventory is valued at cost. Inventory at year-end consists of fuel at the airport and salt at the highway department.

#### Note 2 - Cash and Investments

The investment and deposit of County monies is governed by the provisions of the Illinois Compiled Statutes. In accordance with these provisions, all County monies must be invested in one or more of the following:

1. Interest-bearing savings accounts, interest-bearing certificates of deposit, or interest-bearing time deposits constituting direct obligations of any bank as shall have been selected and designated under the terms of the Illinois Compiled Statutes and as shall have complied with the requirements thereof;

#### Note 2 - Cash and Investments (Continued)

- 2. Shares or other forms of securities legally issuable by savings and loan associations incorporated under the laws of this state or any other state or under the laws of the United States, provided such shares or securities are insured by the Federal Depository Insurance Corporation;
- 3. Bonds, notes, certificates of indebtedness, treasury bills, or other securities now or hereafter issued, which are guaranteed by the full faith and credit of the United States of America as to principal and interest.
- 4. Short-term discount obligations of the Federal National Mortgage Association.

#### **Deposits**

At November 30, 2023, the carrying amount of the County's pooled and segregated deposits including the component unit was \$13,813,153 and the bank balance was \$14,171,418. Deposits consisted of cash in checking accounts, savings accounts, and certificates of deposit at November 30, 2023. Totals do not include agency fund balances.

<u>Custodial Credit Risk – Deposits</u>. Custodial credit risk is the risk that, in the event of a bank failure the County's and the component unit's deposits may not be returned to it. The County and the component unit do not have a deposit policy for custodial credit risk. As of November 30, 2023, \$0 of the County's bank balance of \$14,171,418 was exposed to custodial credit risk as uninsured and uncollateralized deposits.

<u>Custodial Credit Risk – Investments</u>. For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the County will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The County has not adopted a formal investment policy.

<u>Interest Rate Risk – Investments</u>. The County does have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value of losses arising from increasing interest rates. It requires that all securities have a maturity of less than five years, unless matched with a specific cash flow. The County's certificates of deposit have maturity dates of less than one year.

Concentration Risk. Concentration risk is the risk associated with having more than five percent of investments in any issuer, other than the U.S. Government. The County's policy does not address concentration risk. The County does not have any investments associated with concentration risk.

#### Note 2 - Cash and Investments (Continued)

Deposits (Continued)

<u>Credit Risk – Investments</u> Credit risk is the risk that an issuer or other counterparty to a debt investment will not fulfill its obligations. The County does not have an investment policy to limit its credit risk.

#### Note 3 - Capital Assets

The County's Fixed Assets are valued at historical cost or estimated historical cost, if actual cost is not known. A detailed listing is on file with the County Clerk. Total depreciation for the current year, not including the component unit, was \$923,539.

On the government-wide Statement of Activities, the depreciation expense was allocated as follows:

General administration - \$169,103 Judiciary - \$1,611 Public safety - \$103,322 Transportation - \$647,163 Health, welfare, and education - \$2,340

The Board has estimated that no capital assets are impaired as of November 30, 2023.

#### Note 4 - Net Position/Fund Balance

The net position/fund balances are restricted for the following purposes at November 30, 2023. Prepaid expenses of \$0 and Inventory of \$96,430 were considered nonspendable in the fund financial statements, but considered as restricted net position in the government-wide statements:

Roads and Bridges	\$ 3,256,059
Health and Welfare	396,186
Retirement	2,104,493
Airport	402,586
Other Purposes	 901,136
Total	\$ 7,060,460

#### Note 5 - Interfund Receivables/Payables and Transfers

At November 30, 2023, the Maintenance and Child Support Fund has an interfund payable due to the Kids Interface fund in the amount of \$5,773. This amount is due for reimbursement of prior year expenditures.

No interfund transfers made during the year.

#### Note 6 - Subsequent Events

Management evaluated Subsequent Events through January 10, 2024, the date the financial statements were available to be issued. Nothing of substance to note.

#### Note 7 - Other Receivables and Payables

At November 30, 2023, the following receivables and payables are recorded:

- Property Tax Receivable Property taxes levied in 2023 to be collected in fiscal year 2024.
- Due from State payments from the State of Illinois for the State's Attorney, Probation Officer, and Public Defender. Also, due from the State of Illinois for Income Tax, Sales Tax, Covid Cures Grant, and Replacement Tax.
- Other Receivables payments from the Bureau County Department of Health for November Fees not collected until December.
- Accounts Payable amount paid for invoices received in fiscal year 2024 for goods received and services performed in fiscal year 2023.
- Advance from Grantors amount of grants received in fiscal year 2023 for expenditures that will not be incurred until fiscal year 2024 or later.

#### Note 8 - Expenditures in Excess of Appropriations and Deficit Fund Balances

Generally accepted accounting principles require disclosure of certain information concerning individual funds (which are presented only in combination on the basic financial statements). Funds having deficit fund balances and funds which over-expended appropriations during the year are required to be disclosed. For the year ended November 30, 2023 no funds had a deficit fund balance. Actual expenditures in the County Highway Engineering Revolving Fund and the State's Attorney Automation Fund exceeded appropriated amounts for the fiscal year. Actual expenditures in excess of budgeted amounts is in violation of state statutes.

#### Note 9 - Insurance Risk Management

The County's risk management is recorded in the General Fund. All insurance is provided by commercial insurance, and for all programs, there have been no significant reductions in insurance coverage. Settlement amounts have not exceeded insurance coverage for the current year or the three prior years. All insurance expense and settlements are recorded on the accrual basis. The only expenses deducted for risk management are insurance premiums.

#### Note 10 - Other Postemployment Benefits (OPEB)

The County had an OPEB valuation completed in a prior year. This valuation resulted in a net OPEB benefit of \$843, which has been recorded on Statement 1 of this report. As this amount is significantly immaterial, an updated valuation was not completed. Circumstances and participants have remained the same, so a large change in the valuation amount is not expected, and an immaterial amount would be the expected result of the calculation.

#### Note 11 - Long-Term Liabilities

Long-term liability activity for the year ended November 30, 2023 was as follows:

#### Compensated Absences Payable

Compensated absences are generally liquidated by the fund where compensation is paid for the respective employee. The balance is due within one year and decreased by \$19,577 to \$175,593 as of November 30, 2023.

#### Note 11 - Long-Term Liabilities (Continued)

#### Legal Debt Margin

Illinois Revised Statutes limit the amount of debt the County may have outstanding to 2.875 percent of the assessed value of all taxable property located within the County. At November 30, legal debt margin was calculated as follows:

Taxed Assessed Valuation - 2022 Tax Year		\$ 3	342,874,904
Statutory Debt Limitation (2.875%) Total Debt:		\$	9,857,653
Bonds and Contractual	\$ 		_
Legal Debt Margin		\$	9,857,653

#### Note 12 - Pension Plans

Plan Description – The employer's defined benefit pension plan for Regular, SLEP, and ECO employees provides retirement and disability benefits, post retirement increases, and death benefits to plan members and beneficiaries. The employer plan is affiliated with the Illinois Municipal Retirement Fund (IMRF), an agent multiple-employer plan. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained on-line at www.imrf.org.

Methods and Assumptions Used to Determine Total Pension Liability - The actuarial cost method is Entry Age Normal. The asset valuation method is the Market Value of Assets. The actuarial assumptions at December 31, 2022, included (a) 3.25% inflation, (b) 2.25% price inflation, (c) 2.85% to 13.75% including inflation for salary increases, and (d) a 7.25% investment rate of return. The retirement age is based on experience tables of rates that are specific to the type of eligibility condition. The tables were last updated for the 2020 valuation pursuant to an experience study of the period 2017-2019. For non-disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience. For disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Disabled Retirees Mortality Table applying the same adjustment that were applied for non-disabled lives. For active members, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Employee Mortality Table with adjustments to match current IMRF experience.

#### Note 12 - Pension Plans (Continued)

The Single Discount Rate – The Single Discount Rate (SDR) is equivalent to applying these two rates to the benefits that are projected to be paid during the different time periods. The SDR reflects (1) the long-term expected rate of return on pension plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits) and (2) tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating (which is published by the Federal Reserve) as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met). For the purpose of this valuation, the expected rate of return on pension plan investments is 7.25%; the municipal bond rate is 4.05%; and the resulting single discount rate is 7.25%.

Methods and Assumptions Used in the Calculation of the 2023 Contribution Rate -

The required contribution for 2023 was determined as part of the December 31, 2022, actuarial valuation using the aggregate entry age normal actuarial cost method. The actuarial assumptions at December 31, 2022, included (a) 7.25 percent investment rate of return (net of administrative and direct investment expenses), (b) projected salary increases of 2.85% to 13.75% including inflation, and (c) wage growth of 3.25%. The actuarial value of the employer Regular and SLEP plans assets was determined using techniques that spread the effects of short-term volatility in the market value of investments over a five-year period with a 20% corridor between the actuarial and market value of assets. The employer Regular and SLEP plans' unfunded actuarial accrued liability at December 31, 2022 is being amortized over a 25 year closed period until remaining period reaches 10 years, then a 10 year rolling period. The retirement age is based on experience tables of rates that are specific to the type of eligibility condition. They were last updated for the 2017 valuation pursuant to an experience study of the period 2014-2016. The mortality was determined based on RP-2014 Combined Healthy Mortality Table, adjusted for mortality improvements to 2022 using projection scale AA. For men 120% of the table rates were used. For women, 92% of the table rates were used. For disabled lives, the mortality rates are the rates applicable to non-disabled lives, the mortality rates are the rates applicable to non-disabled lives set forward 10 years.

Funding Policy – As set by statute, the employer Regular, SLEP, and ECO plan members are required to contribute 4.50 percent of their annual covered salary. The statutes require employers to contribute the amount necessary, in addition to member contributions, to finance retirement coverage of its own employees. The employer also contributes for disability benefits, death benefits, and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by the IMRF Board of Trustees, while the supplemental retirement benefits rate is set by statute.

The total deferred outflows from the tables above were \$4,276,456 and the total deferred inflows were \$2,361,415. In addition, there were deferred outflows of \$274,320 for employer contributions made by the County subsequent to the actuarial calculation date of December 31, 2022. The schedule of funding progress, presented as Required Supplementary following the notes to the financial statements, presents multiyear trend information about the net pension liability and contribution information.

#### Note 13 - GASB 84

GASB 84 redefined activities in fiduciary funds as follows:

- 1. Pension (and other employee benefit) trust funds Used to report pension plans and OPEB plans administered through trusts that meet the criteria in paragraph 3 of Statement 74, as well as other employee benefit plans for which resources are held in a trust which meet the criteria in paragraph 11c and contributions to the trust and earnings on those contributions are irrevocable.
- 2. Investment Trust Funds Used to report fiduciary activities from the external portion of investment pools and individual investment accounts that are held in a trust that meets the criteria in GASB 84, paragraph 11c(1).
- 3. Private-purpose trust funds Used to report all fiduciary activities that are not required to be reported in pension (and other employee benefit) trust funds, investment trust funds and are held in a trust that meets the criteria in GASB 84, paragraph 11c(1).
- 4. Custodial Funds Used to report fiduciary activities that are not required to be reported in pension (and other employee benefit) trust funds, investment trust funds, or private purpose trust funds. The external portion of investment pools that are not held in a trust that meets the criteria in GASB 84, paragraph 11c(1) should be reported in a separate external investment pool funds column, under the custodial funds classification.

With the implementation of GASB 84 in the fiscal year ended November 30, 2022, the County determined that all funds that were previously considered Agency Funds to be considered Custodial Funds.

#### Note 14 - Leases and Subscription-Based Information Technology Arrangements

The County has adopted GASB 87, Leases, but no material leases have been identified with a term of longer than 12 months, so no additional disclosure has been included.

The County has adopted GASB 96, Subscription-Based Information Technology Arrangements, but no material arrangements have been identified with a term of longer than 12 months, so no additional disclosure has been included.

# MARSHALL COUNTY, ILLINOIS NOTES TO BUDGETARY COMPARISON SCHEDULES Year Ended November 30, 2023

# Note 1 - Budgetary Basis and Excess Over Budget

The budgetary comparison schedule for the General Fund, County Highway Fund, County Airport Fund, County Health Fund, and Illinois Municipal Retirement Fund present comparisons of the budget with actual data on a modified accrual basis. The actual expenditures did not exceed appropriated amounts in any of these funds for the fiscal year.

# MARSHALL COUNTY, ILLINOIS FUND DESCRIPTION November 30, 2023

The General Fund was established to account for resources traditionally associated with governments which are not required to be accounted for in another fund.

Year Ended November 30, 2023

# MARSHALL COUNTY, ILLINOIS NONMAJOR SPECIAL REVENUE FUNDS FUND DESCRIPTION

November 30, 2023

County Bridge Fund - to account for the repairs and maintenance of the bridges located within the County that are not the sole responsibility of the Townships within the County. Financing is principally provided by a specific annual property tax for the purposes of improving, maintaining, and repairing the bridges for which the County has these responsibilities. In addition to the ad valorem taxes mentioned previously, the County Bridge Fund receives revenue from grants disbursed by state or federal agencies.

Federal Aid to Secondary Roads Fund – to account for the operations of the County Highway Department in cost-sharing programs with the federal government in connection with constructing or reconstructing highways in the Federal Secondary System and engineering and right-of-way costs. Funding is provided by a specific annual property tax levy.

County Motor Fuel Tax Fund – to account for the operations of the County Highway Department in connection with highway construction and maintenance projects as authorized by the Illinois Department of Transportation. Financing is provided by the County's share of the state motor fuel tax.

County Highway Engineering Revolving Fund – to account for the collection of engineering fees charged to township road districts and the subsequent use of the collections for the payment of engineering related costs.

Marshall-Stark Transportation Fund – to account for the operation of the public transportation service that serves Marshall and Stark Counties. This service is financed with operating grants and charges for service.

Social Security Fund — to account for the revenues and expenditures of social security contributions made on behalf of County employees. Financing is provided by a specific annual property tax levy and an allocation of the Illinois personal property replacement tax.

Tax Sale Automation Fund – to account for fees collected by the Treasurer for establishing and maintaining automated record keeping systems in the office of the County Treasurer.

Court Automation Fund – to account for the automation of circuit court files. Revenue in this fund is derived from an additional fee charged for transactions in the Circuit Clerk's office.

Court Systems Fund – to account for court fees collected by the Clerk of the Circuit Court for certain cases processed by the Clerk's office. The funds are to be used to assist in financing operations of the court system in the County.

County Clerk's Automation Fund – to account for the automation of the County Clerk files and records. Revenue in this fund is derived from an additional fee charged for transactions in the County Clerk's office.

Animal Control Fund – to account for a portion of the operations of the County's Animal Control Program. Funding is provided by dog registration fees collected annually. The funds shall be used to pay the cost of stray dog control, impoundment, education on animal control and rabies, and other costs incurred in carrying out the provisions of the Illinois Animal Control Act.

E-Citation Funds – to account for fees which are collected by the Clerk of the Circuit Court. These funds are to be used for financing electronic citation expenditures in the County.

# MARSHALL COUNTY, ILLINOIS NONMAJOR SPECIAL REVENUE FUNDS FUND DESCRIPTION November 30, 2023

County Law Library Fund — to account for operations of the County's Law Library. Financing is provided by the charging and collecting of a County law library fee by the Circuit Clerk. Such fee is to be collected at the time of filing the first pleading, paper or other appearance filed by each party in all civil cases. The facilities of the library are freely available to all licensed Illinois attorneys, judges and other public officials of the County, and to all members of the public, whenever the courthouse is open.

Maintenance and Child Support Fund – to account for fees which are collected by the Clerk of the Circuit Court. These funds are to be used for financing drug traffic prevention expenditures in the County.

**Drug Enforcement and Addiction Fund** – to account for drug fines which are collected by the Clerk of the Circuit Court. These funds are to be used for financing drug traffic prevention expenditures in the County.

Community Mental Health Fund – to account for the operations of the County's program with regard to its mentally deficient residents who are not eligible to participate in any such program conducted under Article 14 of the School Code. Financing of the fund is provided by a specific annual property tax levy.

Indemnity Fund – to account for a specific element of the County's tax sale proceedings. Revenue in this fund is derived principally from a fee charged in connection with the purchase of all parcels in the annual real estate tax sale held by the County Collector resulting from unpaid property taxes. All fees received by the County Collector are paid to the County Treasurer for the purpose of payments made in satisfaction of judgments obtained against the County Treasurer by property owners who without fault or negligence of their own sustain loss or damage by reason of the issuance of the tax deed.

**Public Defender Operations Fund** – to account for fees collected by the Clerk of the Circuit Court for services of the public defender.

**Probation Services Fund** – to account for fees collected by the Clerk of the Circuit Court from adult offenders sentenced to probation.

**Document Storage Fund** – to account for fees collected by the Clerk of the Circuit Court for certain cases processed by the Clerk's office. The funds are to be used to defray the expense of establishing a document storage system and to convert the records of the Clerk to electronic or micrographic storage.

**Drug Prevention Fund** – to account for donations collected by the County Sheriff. These funds are used for financing the D.A.R.E. program.

Vital Records Fund – to account for fees collected by the County Clerk for certified copies of vital records. The funds are to be used to defray the cost of implementing and maintaining the document storage system.

KIDS Interface System Fund – to account for grant money received from the Illinois Department of Public Aid. The funds are to be used to defray the expense of establishing an electronic tracking system for child support payments.

Geographic Information System Fund — to account for fees collected by the County Clerk for each official document submitted for recording. The funds are to be used to defray the cost of implementing and maintaining the geographic information system.

# MARSHALL COUNTY, ILLINOIS NONMAJOR SPECIAL REVENUE FUNDS FUND DESCRIPTION November 30, 2023

**DUI Equipment Fund** – to account for fees collected by the County Sheriff. These funds are used for financing the purchase of DUI equipment.

Coroner's Morgue Fund – to account for state funds received by the County for the purchase of a refrigeration unit.

States Attorney Drug Fund – to account for state funds received by the County for the purchase of a refrigeration unit.

Vehicle Maintenance Fund – to account for funds received by the Sheriff's office for vehicle maintenance.

FTA Warrant Fee – to account for fees collected by the clerk of the court for failure to appear warrants.

Sheriff Commissary Fund – to account for commissary payments made to the Sheriff's department from current inmates.

States Attorney Automation Fund – to account for fines collected by the State Attorney. The funds are used to maintain automated recordkeeping systems in the State Attorney's office.

Vehicle Impoundment Fund – to account for fines collected by the clerk of the circuit court for the Sheriff's department to use for vehicle purchases.
